Who I Am

- ▶ Primary Network Administrator of VOI Network Solutions – Winnipeg-based commercial Internet Service Provider and carrier.
- ▶ Involved with both Internet Exchanges in Winnipeg.
 - ▶ Elected member on the Board of Directors for MBIX.
 - ▶ Also involved with the creation and technical operations of WpgIX.
- ▶ Avid opensource software user/fanatic, and recently, contributor.

My Life with Nagios

- ▶ Running Nagios since ~2006.
 - ▶ Mainly for ISP monitoring.
 - ▶ Mainly active checks from a central host.
 - ▶ Also agent based checks (NRPE, Salt)
- ▶ I run 2 distributed Nagios processes.
 - ▶ 1 on Voi Networks (v4/v6)
 - ▶ 1 on Vultr (v4/v6)

Why Manage Configs w/ Git?

- ▶ Automatically backs up your configs.
- ▶ Easy to view when changes were made, and what exact changes were made.
 - ▶ Patches can be made to distribute changes to other instances.

Questions / End

- ▶ Question & Answer period as time permits.
